Guestrooms

ARIA's hotel accommodations range from modern deluxe rooms to the inviting Tower Suites and the stunning Sky Suites, including lavish, two-story Sky Villas. These luxurious rooms are at the forefront of sustainable design and cutting-edge technology.

Technology

ARIA boasts the most technologically advanced guestrooms in the country. Every guestroom features a level of personalized automation currently found only in high-end custom homes.

- ARIA Wi-Fi offers a guaranteed 1Megabit connection, the most in the industry
- ARIA guestrooms and suites are equipped with dedicated tablets offering a hyper-tailored guest experience with amenities such as digital in-room dining orders, one-touch spa service requests and an endless stream of news in multiple languages
 - One-touch control of lighting, room temperature, television/video systems, music, wake-up calls, draperies and requests for service through a single, easy-to-use remote control
 - Guests can choose to wake up gradually through controlled temperature, lighting, curtain opening and preferred music
 - One button can modify all room settings at once; "Good Night" turns off lights, TV and/or music, shuts curtains and turns on privacy notification
- Rooms and suites recognize guests' first time in the space and "greet" them as they enter: light fills the room, the curtains automatically part to showcase the spectacular city or mountain views, and the TV turns on to display a list of automated controls for personalization
- Keyless locks utilizing RFID (radio frequency identification) technology reduce the failure of room keys
- In-room devices automatically "communicate" maintenance needs; remote control batteries and light bulbs are replaced before guests notice a problem

Additional Features

- Expansive floor-to-ceiling windows; corner-window views from every guest floor
- 42-inch LCD HDTV with 'smart panel' allowing guests to connect laptops, game consoles, cameras, MP3 players, etc.

Sustainability

- ARIA is one of the world's largest sustainable developments, bringing a new level of environmental consciousness to the world-famous Strip. The U.S. Green Building Council has awarded LEED Gold certification to ARIA's hotel tower, convention center and theater; as well as Vdara Hotel & Spa, Mandarin Oriental, Las Vegas and Veer Towers
- In 2010, ARIA and Vdara Hotel & Spa became the first Las Vegas hotels to achieve a 5 Keys designation by the Green Key Eco-Rating Program – the foremost "green" ranking, certification and audit program in North America evaluating sustainable hotel operations. The 5 Keys designation is a certification level achieved by only approximately one percent of all hotels rated by Green Key
- In 2012, ARIA received 5 Keys by the Green Key Meetings Rating Program, which determines the sustainability of a venue by using a comprehensive assessment within six areas: Core Areas, Communication, Activities, People, Exhibitions and Audio/Visual
- ARIA features the world's first fleet of stretch limos powered by compressed natural gas (CNG). In addition to abundant domestic reserves, CNG is one of the cleanest-burning alternative fuels available
- ARIA's design incorporates sustainable features including the extensive use of natural light, dramatically reducing lighting power requirements in guestrooms, and water-saving fixtures throughout
- The resort is designed to achieve more than 30 percent improvement in energy efficiency
- ARIA saves an estimated 31 million gallons of water each year. This equates to an overall savings of 40 percent within the building and 60 percent in outdoor landscaping over existing building codes
- ARIA offers sustainable options for meetings, conventions and events by incorporating environmentally responsible practices and services. In addition, all convention sales kits are made from recycled paper materials with the exception of the outside wrap, and the uniforms in the convention area are woven from recycled polyester
- ARIA utilizes two recycling docks for collection and separation of glass, paper, cardboard, metals, plastic, food waste and grease
